OPERATIONS EXECUTIVE | SaaS Implementation, Support, and Retention | Logistics Technology

Charlotte, NC | (704) 555-0142 | jordan.rivera@example.com | linkedin.com/in/jordan-rivera-example

16 to 9 wks go-live time | **95%** revenue retention | **$11.2M** budget | **31 to 12 hrs** resolution

SUMMARY

Operations leader with 14 years in logistics and supply chain software, most recently running implementation, support, and training for a 420-person transportation software company. I build the post-sale engine that turns new customers into long-term ones.

Known for plain metrics, weekly operating rhythms, and teams that keep their best people. Comfortable with acquisitions, fast growth, and boards that want the numbers straight.

KEY ACHIEVEMENTS

- **Faster go-lives.** Cut average implementation time from 16 weeks to 9 weeks at Tidewater Freight Systems by rebuilding onboarding around three standard tiers.
- **Customers stay.** Helped raise gross revenue retention from 89% to 95% in three years by pairing implementation leads with account owners through the first renewal.
- **Acquisition integration.** Integrated an acquired company's 38 employees and 120 customers onto one support platform in 7 months and kept 97% of acquired customers through year one.
- **Team built from 6.** Built Kestrel Route Software's implementation team from 6 to 23 people and onboarded 140 new customers in 2017 and 2018.
- **On-time shipping.** Raised on-time shipment rate from 91% to 98.5% across two Brightpine Distribution centers.

PROFESSIONAL EXPERIENCE

Director of Operations
Jan 2021 to Present

Tidewater Freight Systems, Charlotte, NC

Transportation management software for mid-market shippers and carriers. About 420 employees.

Mandate: *Hired to rebuild the post-sale team after a year of slow go-lives and rising churn.*

- Lead implementation, support, and training: 64 people and an $11.2M operating budget. Report to the COO.
- Rebuilt onboarding around three standard tiers with fixed scopes and go-live checklists; average implementation time fell from 16 weeks to 9 weeks.
- Paired each implementation lead with an account owner through the first renewal, which helped raise gross revenue retention from 89% to 95% in three years.
- Ran the operations integration of Lanternfish Yard Systems (acquired 2023): 38 employees and 120 customers moved onto one support platform in 7 months, with 97% of acquired customers kept through year one.
- Cut average ticket resolution time from 31 hours to 12 hours with tiered routing and a searchable fix library.
- Reduced cost to serve per customer 22% from FY2022 to FY2024 while the customer base grew.
- Launched a customer training academy that certified 1,100 customer users in 2024.
- Consolidated support and training tools from 7 vendors to 3, saving $640K per year.

Senior Manager, Customer Operations
Mar 2019 to Dec 2020

Tidewater Freight Systems, Charlotte, NC

- Built the headcount capacity model finance now uses to plan post-sale hiring each quarter.

Senior Manager, Implementation
Jun 2015 to Feb 2019

Kestrel Route Software, Atlanta, GA

Route planning software for regional distributors.

- Built the implementation team from 6 to 23 people and onboarded 140 new customers in 2017 and 2018.
- Wrote the standard implementation playbook that cut go-live defects 45%.
- Set up the first customer health score, used by sales and support to plan renewals.
- Hired and trained the first two implementation managers promoted from within.

Operations Manager
Sep 2013 to May 2015

Brightpine Distribution, Charlotte, NC

Third-party logistics provider with two distribution centers.

- Ran daily operations for two distribution centers and 85 hourly associates.
- Raised on-time shipment rate from 91% to 98.5% across both distribution centers.
- Cut overtime cost by $410K per year with demand-based shift planning.

Logistics Analyst
Jul 2012 to Aug 2013

Brightpine Distribution, Charlotte, NC

- Built the weekly carrier scorecard used in rate negotiations.
